Principal Geologist Announcement

Calgary, Alberta – Darrell Haight, President of Trace Associates Inc. (Trace), is pleased to welcome Mr. Colin Green, M.Sc., P.Geol., FGS to the position of Principal Geologist with Trace. Mr. Green will be responsible for overseeing the technical and quality aspects of Trace's environmental assessment, remediation, and risk assessment portfolio.

Colin Green, M.Sc., P.Geol., FGS

Mr. Green has more than 20 years of experience in the environmental and geological industry in both Canada and the U.K. and has worked on a variety of projects within the energy, industrial and chemical business sectors. A University of Aberdeen and University of Sheffield graduate, Mr. Green began his career as a wellsite and project petroleum geologist in the U.K. and western Europe, before working as a senior environmental geologist consulting in the U.K. and then in Canada. Mr. Green holds professional designations in both Alberta and Saskatchewan and is a Fellow of the Geological Society of London in the U.K.

Mr. Green has extensive experience with soil and groundwater assessments and risk management approaches for contaminated sites. Mr. Green has been involved in a variety of remediation methods including process-driven techniques such as soil washing, land farming, bioremediation, pump and treat, and 'in-situ' technologies including soil vapour extraction (SVE), air sparging, and chemical stimulation.

President's Remarks

"We are very excited to add Colin to our team" Haight says. "Trace is focused on expanding our groundwater and remediation systems services in a sustainable manner and Colin's background will provide a perfect fit for our culture and our clients as we build on the momentum we've established in western Canada".

About Trace Associates Inc.

Founded in 2006, Trace is an employee-owned environmental consulting firm serving western and northern Canada. Trace's team of energetic professionals is capable of managing and efficiently completing all types of projects. We take pride in our enthusiasm, focus on safety, and client responsiveness.

Trace values its employees and provides a rewarding, collaborative, and secure working environment. At Trace, team members benefit from the opportunity to work on projects with renowned clients, take ownership in the company, and grow and develop their careers and skill sets within the firm.

Trace provides sustainable environmental consulting services to real estate, development, energy, and industrial clients during all stages of the project life cycle (planning, construction, operation, decommissioning, and redevelopment).
