May 2015

Steve Mailath, M.Sc., P.Geol. – Principal Hydrogeologist

Calgary, Alberta – Darrell Haight, President and CEO of Trace Associates Inc. (Trace) is pleased to welcome Mr. Steve Mailath to the position of Principal Hydrogeologist. Steve will join Trace's Senior Management Team and help grow Trace's physical hydrogeology and contaminant hydrogeology business across all sectors.

Steve Mailath

Steve brings more than 30 years of experience in soil and groundwater contaminant assessment, risk management, remediation technology development, groundwater resource evaluation, management, and licensing. Throughout his career, he has provided mentorship to those entering hydrogeology and has taught environmental courses both in Canada and South America. In addition, Steve has prepared environmental guidelines and manuals for the oil and gas industry. He completed his Master's thesis on hydrogeological and hydrochemical investigations for assessment of contamination at an industrial site in Patras, Greece. Steve has worked on numerous municipal, industrial, and oil and gas industry sites in Western and Northern Canada.

"Steve increases our capacity in physical hydrogeology and strengthens our contaminant hydrogeology capabilities here at Trace," says Haight. "He brings international and expert advisory experience to Trace and a commitment to doing great work while having fun. We are pleased to have Steve join Trace and enhance our technical capabilities across all market sectors."

About Trace Associates Inc.

Founded in 2006, Trace is a 100% employee-owned environmental consulting firm serving Western and Northern Canada. Trace's team of energetic professionals is capable of managing and efficiently completing all types of projects. We take pride in our enthusiasm, focus on safety, and client responsiveness.

Trace provides environmental consulting services to oil and gas, real estate, development, government, forestry, mining, and industrial clients during all stages of the project life cycle (planning, construction, operation, decommissioning, and redevelopment).
