Your Challenge

Your projects need experts that can help you build what you need to build while minimizing environmental impacts and ensuring regulatory compliance. You may be looking to reduce your greenhouse gas emissions, improve your wastewater treatment efficiency, manage weeds, reforest a site, reclaim your oil sands lease, file a regulatory application, or cross a waterbody. Whatever your challenge, we're here to help.

Your Solution

Retain a firm with registered professionals you can trust and a firm that will help you make smart and cost effective decisions. Our goal is to help you understand your challenge and work with you to find the right solution.

Your Team

Trace Associates Inc. (Trace) is an experienced and leading firm in providing environmental consulting services throughout Western and Northern Canada. We possess an energetic team of professionals capable of managing and efficiently completing all types of projects. We take pride in our focus on safety, passion, and client responsiveness.

Our Clients

At Trace, we want to work with the best – that's where you come in. Whatever your size, Trace will work with you to meet or exceed regulatory compliance requirements and to ensure you're meeting your environmental goals.
