Your Challenge

Environmental performance and compliance is in the forefront of the public eye and companies have the opportunity to strengthen their project permitting and environmental compliance. Whether it is a need for project permitting, an enhanced understanding of key approvals, regulatory and stakeholder liaison, or training your workforce; we're here to help.

Your Solution

Retain a firm with in-house industry regulatory experience that will help meet or exceed public and regulatory expectations.

Your Team

Trace Associates Inc. (Trace) is an experienced and leading firm in providing environmental consulting services throughout Western and Northern Canada. Our regulatory team has 50+ years of experience (including working for industry and government) that allows us to understand your needs and become a part of your team.

Our Clients

At Trace, we want to work with the best – that's where you come in. Our clients include mining, energy, sand and gravel, and industrial companies. We work for all types of clients including mid-size companies and large international corporations. Whatever your need, Trace will work with you to meet or exceed regulatory compliance requirements and to ensure you're meeting your environmental goals.
